📍 Ogbomoso, Oyo State, Nigeria

PROFILE

Highly motivated web developer proficient in front-end technologies such as HTML, CSS, JavaScript and frameworks (React), good understanding of back-end skills with Node. In no small part due to my work with html, css and JavaScript but also many other tools like MongoDB, Firebase, Git Version Control etc., I am experienced in developing scalable responsive applications through best practices and enjoy collaborating towards solving technically challenging issues; all while ensuring great consideration for business solutions that are user-friendly and effective.

PROFESSIONAL EXPERIENCE

Web Developer

Sep 2021 – Oct 2024 | Ogbomoso, Nigeria

Summary

- Contributed to e-commerce and banking applications, gaining hands-on experience with MongoDB, JavaScript, and responsive designs during my internship at **Soft Quest Incorporated**.
- During my role as a **Frontend Developer**, I built an automated CBT system for **Glorystar International School** that graded and recorded scores in real-time using **React** and **Firebase**.
- Teamed up with other developers to **develop a cryptocurrency mining platform** at **Afriverse**, utilizing **React**, **Node.js**, and blockchain technology that allows users to mine tokens and earn rewards.
- Implemented responsive, scalable solutions across projects, focusing on performance, security, and user experience.

PROJECTS

Airdrop Mining Platform for Cryptocurrency

Aug 2024 – Oct 2024

A comprehensive blockchain-based airdrop project, inspired by Hamster Kombat, enabling users to mine tokens and earn rewards through interactive features.

Automated CBT Examination System

Jun 2024 – Aug 2024

A fully-featured online examination platform with automated grading and student management, reducing the need for teacher intervention.

EDUCATION

Software Engineer
