### Profile

Highly motivated web developer proficient in front-end technologies such as HTML, CSS, JavaScript and frameworks (React), good understanding of back-end skills with Node. In no small part due to my work with html, css and JavaScript but also many other tools like MongoDB, Firebase, Git Version Control etc., I am experienced in developing scalable responsive applications through best practices and enjoy collaborating towards solving technically challenging issues; all while ensuring great consideration for business solutions that are user-friendly and effective.
