PROFILE

Frontend-focused web developer with 3+ years of experience building responsive, user-friendly web applications using React, JavaScript, and Firebase. Proven ability to develop real-world solutions, including online examination systems and blockchain-based platforms. Strong foundation in full-stack development with Node.js and MongoDB, and a focus on performance optimisation and scalable design.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Firebase, REST APIs

Database: MongoDB, Firebase Firestore

Tools & Deployment: Git, GitHub, Vercel, Render

Other: Responsive Design, Cross-Browser Compatibility, Debugging, CI Basics

PROFESSIONAL EXPERIENCE

Web Developer

2022 – 2024 | Ogbomoso, Nigeria

Frontend Developer (Projects & Freelance Work)

- Developed a **React + Firebase CBT examination system** that automated grading and score recording, reducing manual grading effort by approximately 70%
- Built a **blockchain-based cryptocurrency mining platform** using React and Node.js, enabling users to earn rewards through token interactions
- Applied **responsive design principles** across multiple web applications, ensuring compatibility across mobile, tablet, and desktop devices
- Integrated REST APIs and Firebase services to support **real-time data updates and seamless user experiences**

Soft Quest Incorporated (SQI)

May 2024 – Aug 2024 | Ogbomoso, Nigeria

Web Development Intern

- Contributed to the development of **e-commerce and banking applications**, gaining hands-on experience with MongoDB and JavaScript
- Assisted in building responsive user interfaces and improving application performance
- Participated in code reviews and debugging processes to enhance application stability, secure data storage, and real-time updates
- 4. Collaborated with school staff to customise the platform's features, ensuring it met educational needs while maintaining a user-friendly interface

PROJECTS

Automated CBT Examination System

Jun 2024 – Aug 2024

- Designed and developed a full-featured online examination platform using **React and Firebase**
- Implemented **real-time grading and student performance tracking**, improving efficiency for educators
- Built an intuitive UI that enhanced usability for both students and administrators

Cryptocurrency Airdrop Mining Platform

Aug 2024 – Oct 2024

- Developed a blockchain-inspired web platform allowing users to **mine tokens and earn rewards**
- Built interactive frontend components with React and integrated backend services using Node.js
- Designed a scalable architecture to support increasing user activity

EDUCATION

Software Engineering Program

2022 | Ogbomoso, Nigeria

Soft Quest Incorporated (SQI)

- Completed hands-on training in full-stack development, including CRUD applications, OOP principles, and test-driven development
